

Dear Reader

Do you believe?
In what, you ask?

In the unseen, of course.

If you're not sure, but seek answers...

If you desire confirmation that you're not alone in your beliefs and/or experiences...

If you want company on your journey...

Welcome to *The Witch's Cloak: A Memoir of the Unseen*, a magical collection of personal accounts with many layers and aspects of life beyond our five senses – stories about manifesting, the angelic world, synchronicity, reincarnation, spirit communication, and more. Woven into an inspirational and unique memoir of discovery and sacred awakening, *The Witch's Cloak* holds precious treasures adorned with the jewels of wisdom, gratitude, and profound love. All that's recanted here – the embarrassing bloopers, profound lessons, and heartwarming triumphs – are met with whimsy, candor, humor, and authenticity.

I built my trust in Source, myself, and my Self through years of deeply impactful and highly personal happenings, which gave birth to *The Witch's Cloak*. Within these pages, detailed in each chapter, are my experiences of learning, growing, and living in tune (and at times out of sync) with the unseen, namely spirit, Spirit, Source, and the mystical forces within and all around us. Frequently, however, experiences can remain just that – solely ours: mysterious events, coded within feelings, meant to be lived rather than bound to less-than-perfect words. Therefore, I endeavor to impart my stories by speaking through the heart, a cosmic synthesis of universal tongue. Perhaps, for a moment, I can bring you into my world, and as you step through the doorway, that glimpse may curiously awaken something in you – a memory, an Essence. Hopefully, what calls to you is a love so profound that you'll come inside for a while. And as you enter *The Witch's Cloak's* brief snapshots in time, as your relationship with characters and events unfolds, each story can become uniquely yours. Most of all, I hope it reminds you, dear reader, that the profound exists in our everyday lives, brought to the fore by observation, focus, and a willingness to discover beauty and sacredness moment by moment.

However you navigate *The Witch's Cloak*, may it offer many opportunities to inform and spark thought-provoking contemplation and meaningful discussions. As an aid in this endeavor, chapters conclude with specific reflections, encouraging you to ponder individually, speak with friends and family, or engage with other groups to dialogue and consider the ways each story resonates, challenges, or inspires you.

I wish I could impart all the unusual, wonderful, and mystical events in my life. There have been so many. For

now, I offer what's chronicled here. So, cheers to enjoying your journey within and beyond these pages. May what you read spark your own connection to All-that-is, trust in your intuition, a desire to seek answers, and unity with the Cosmos, uniquely yours. And always, may you go forth with many beautiful blessings, discovering heart-warming gifts from the unseen for years to come.

Namaste,

Adriene
